## Harmony 32

32-Key Portable Keyboard with Built-In Speakers

### Separate the Pianos from the Toys

Don't let the Harmony 32's small size fool you – there are 300 high-quality tones packed into this pint-sized piano. There is an assortment of traditional piano and orchestral instruments, but also guitars, drums and sound effects. The Harmony 32 also has a Layer Mode to combine multiple tones and create your own unique sounds – the possibilities are endless. The built-in speakers project every note clearly, whether powering a home performance or turned down for quiet practice. Need to get extra quiet? Connect your favourite headphones to automatically mute the speakers.

### Valuable Learning Features Built-In

The Alesis Harmony 32 includes 40 demo songs that are fun and easy for beginners to play along with. For the more adventurous, there's Accompaniment Mode featuring 300 built-in rhythms to "tickle the ivories" over. This tiny keyboard even features a Split Mode so two people can play along together. This is the perfect feature for when a piano teacher, friend or family member wants to join in on the fun!

### Play Piano Anywhere, Anytime

The Harmony 32 can be powered via USB or with 4 AA batteries (not included). Because it can be battery-powered, the Harmony 32 can go anywhere with you. You can practice outside or take it to a friend's house. You could even brush up on your skills during a long road trip (if you're not the one driving!).
